Who We Are

About Creace

Our story began in 2009. The company was formed by a group of young zestful, intriguing and committed minds who were excited about solving complex business problems, ethically. We all stepped into the real world with the confidence of what we learnt together and having a single goal in our mind, serving the best solution possible for our clients.

Looking back after 11 years and still standing tall as a single unit, the company has successfully deployed hundreds of IT solutions to clients all over the world. Now we are a group of professionals having vivid experience and wide exposure in the IT sector. We always have the motto of making the world a better place with technology in the front line.

The company has offered a wide range of services in the software development, delivery, testing and maintenance of Mobile applications, CRM solutions etc. for large and medium scale enterprises.

We dream to be pioneers in the field of enterprise mobility by implementing your innovative concepts and developments in the market. The company emphasizes on its new concepts and also believes in its potential to make these innovative concepts into reality.

We are here to build long term relationship with our customers and clients by providing exceptional services through innovation and advanced technology. We grow through creativity, invention and innovation in all aspects of our business functioning.

Koh Samui

Thailand

The expansion of tourism in Koh Samui has resulted in growth of building resorts, bungalows, and luxury private villas on the island. The island's total inventory of 17,479 hotel rooms in 2013 will be augmented by an additional 459 new rooms by 2015. A gradual shift in demand is seeing more Asian visitors and families, but the top three source markets have been Germany, the UK, and Thailand, which contribute a combined 27 percent share. Bangkok Airways continues to modernise its fleet with new Airbuses, phasing out older ATR 72 propeller planes, which will provide 1,89,000 additional airline seats for Samui travelers. Bangkok Airways has already increased the number of daily flights from 36 to 50.

The island received more than 2.5 million foreign visitors in 2017, up from 2.34 million in 2016. According to a luxury hotelier, tourists traveling to Koh Samui spend an average of 7,700 to 8,200 baht per head per day.

As of 2020, legislators in the Thai parliament have put forward a proposal to build an 18 kilometre bridge linking mainland Nakhon Si Thammarat Province with Koh Samui. The MPs claim that the project would spur

Hath Rajlah

Description

Hath Rajlah is an interesting game application developed on both iOS and Android, using Unity 3D. It is a unique game based on the character "Hazzar" by the famous Saudi Arabian actor Fahad Al Hayyan. The concept of the game is to make the Hazzar run the maximum distance while dodging the obstacles to collect the game points and power ups. Longer the character runs, more the points earned by the user.

Testimonials

What our clients say ..

Pankaj
Managing Director, Blaupunkt India Ltd

"One of my business acquaintances had once introduced me to Creace Technologies and I decided to give it a try. They developed an e-catalogue app for my business and I am happy with the result. I am impressed with their expertise and quality. Without any second thoughts, I have asked them to help me with the iOS version of it. It's fun working with this team!!"

Raymond Finlayson
Director, Zamloo Ltd

"We developed a great relationship with Creace and your dedication to our app is evident in all aspects. We appreciate your attention to detail and creative approach in bringing Zamloo to life. Good work."

Callum McKay
Managing Director, Phuket Travel Guide

"We have worked with Creace Technologies Pvt Ltd since June 2012 now and are delighted with the work carried out so far. Phuket Travel Guide is a tourist information company in Phuket so all project work needs to be of the highest quality, which is what we get with Creace Technologies. They are responsible for creating the app and have helped intensively throughout the start-up idea to design to producing and modifying the app.

Creace Technologies understand the high standards that our company have and are most efficient in delivering well within the time limit, understand the concept totally and I would highly recommend working with them."

Testimonials

What our clients say ..

Manu Bhasi
Project Consultant, Ooredoo Qatar

"The remarkable team effort from Creace Technologies helped us to design, develop and deliver an amazing solution for our partners. With their competence, prompt response and dedication, we were able to design a wonderful and innovative application that will break new ground in the Customer Loyalty industry. My team's experience with you guys was very positive and unsurpassed. And I'm looking forward to starting our next project with your wonderful team at Creace. Thank you all!"

Sean Singh
Owner and Founder, UrbanSoul

"We started with a small project back in 2011 and ever since then, Creace Technologies is the first name that comes to our mind when we require any software solutions for the business. Their expert advice and easy to communicate nature has helped us in enhancing our product ideas. Highly professional and friendly, we are happy to have you like our software solution providers since 2011. Undoubtedly dependable, I recommend Creace Technologies for your IT solutions!"
